HANDS-ON PRF WORKSHOP

Platelet-Rich Fibrine in Dental Implantology | Level: Intermediate

Join Mexico's Dr. Alan René as he delves into the latest implantology techniques using Platelet-Rich Fibrin (PRF) in conjunction with AB Dental's I-ON conical platform system. You'll practice hands-on, making your own PRF membranes and following sticky bone and other best-practice protocols. (And don't miss Dr. René's lecture on the second day of the symposium!)

FASCINATING LECTURES

• 08:30-09:00 | **Registration**

• 09:00-09:15 | **Opening Remarks:**

AB Dental Latin America director, Mr. Avi Bensimon.

• 09:15-10:00 |

DR. RICARDO NAVES:

**Fundamentals of Perio-implant
Prosthetics for Zero Bone Loss**

Fundamental surgical and prosthetic aspects resulting in zero peri-implant bone loss and even bone quality improvement around the implants.

• 10:00-10:45 |

DR. ALAN RENÉ:

e-PRF – Extended Platelet-rich Fibrin

Utilizing extended-PRF (e-PRF) membranes as a substitute for collagen barrier membranes in clinical applications such as guided tissue/bone regeneration.

• 10:45-11:15 |  **Coffee break**

11:15-12:00 |

DR. GREGORIO BLANCO:

Full-arch Rehabilitations On Conventional Implants

This comprehensive treatment plan includes diagnosis, pre-tests, application of PRGF, suitable prosthesis indication, patient maintenance, a post-operative radiofrequency session, and more to restore oral function and aesthetics for suitable candidates.

12:00-12:45 |

DR. DANIEL MORALES:

Prosthetic-guided Surgical Planning In Implantology

Prosthetic and surgical protocols, reverse planning that digitizes correct implant placement, future rehabilitation, and immediate loading.

13:00-14:30 |

Lunch break

14:30-15:15 |

DR. IVÁN DELGADO:

Supracrestal Tissue Attachment and The Use Of AB Dental's I5 Conical Implant

The importance of normal and peri-implant periodontal tissues and other clinical considerations before dental implant planning and placement.

15:15-16:00 |

DR. GREGORIO BLANCO:

Full-arch rehabilitations on Subperiosteal Plates, complete and partial

A popular dental technique for restoring damaged or missing teeth while ensuring a long-lasting, natural-looking smile restoration. It involves a customized subperiosteal plate placement with PRGF and immediate load placement after scanning for measurements.

16:00-16:15 |  **Coffee break**

16:15-17:00 |

DR. RICARDO NAVES:

Immediate Implants in Compromised Alveoli of The Anterior Sector

Immediate implant installation, also in sockets with a compromised buccal bone table and unfavorable gingival conditions, for excellent aesthetic results.

17:00-17:45 |

DR. ALAN RENÉ:

Immediate Implant Placement with only PRF (No Bone Graft)

Effect of grafting only with PRF membranes the gap (SG) between the implant surface and alveolar socket on hard and soft tissue changes following a single immediate implant placement.

17:45-18:00 | **Q&A panel**

EXPLORE BOGOTÁ

Bogota, the capital of Colombia, blends colonial charm with urban vibrancy. Wander the cobblestone streets of **La Candelaria** to discover historic sites, and don't miss the **Botero Museum's** art treasures. For stunning city views, ascend to **Monserate**. Indulge in Bogota's rich culinary scene, from traditional Colombian dishes to global cuisines. The lively nightlife in **Zona Rosa** encapsulates Bogota's spirited ambiance, making it a must-visit destination.
