

DENTAL LASERS: Elevate Your Practice

Friday, April 5th 9am - 3pm

3 CE HANDS-ON PROGRAM

Discover how the 9.3-micron CO2 all-tissue laser can elevate your practice through improved efficiency, patient experience, clinical effectiveness, and procedural expansion. This comprehensive course merges clinical and business cases with hands-on experience to demonstrate the benefits virtually anesthesia-free, blood-free, and pain-free procedures provide you and your patients.

- **Novel Technology:** Explore how the 9.3-micron wavelength enables precise and controlled vaporization of enamel, dentin, decay, gingiva, and bone.
- **Clinical Versatility:** Learn how the 9.3-micron CO2 all-tissue laser can benefit almost every patient, every day with applications in restorative, soft tissue, implant, airway, TOTs, and cosmetic procedures.
- **Practice Impact:** Understand how improved efficiency, clinical effectiveness, and patient experience combine to create a profound impact on practice growth.
- **Hands-On Experience:** Gain experience cutting with the laser using the unique variable-speed foot pedal, demonstrating seamless transitions between different tissues.

SPEAKER

JOSE MARCANO, DMD

Dr. Jose Marcano's philosophy in dentistry is one of persistent monitoring of innovative and paradigm shifting trends in dentistry. He believes that an open mind to paradigm shifting trends in dentistry, like the Solea Laser, allows him to be a "cutting edge dentist". Dr. Marcano has taken numerous continuing education courses in the Implant Surgery, Laser, and Cosmetic Dentistry field, his practice is mostly a full surgical reconstructive restorative practice. He is a trainer for several dental companies and he has certified hundreds of dentists in the use of implants and dental lasers.
